

iPhone Tips October 2022

Screenshots

To take a screenshot simultaneously quick press the UP VOLUME button (top left side of phone) and ON/OFF button (right side of phone)

A screenshot will appear on the lower left hand side of the screen. Touch it to enlarge. Crop if needed.

Use the toolbar below to draw/erase on screen.

Press the + for more options. Description, Text, Signature, Opacity, Magnifier, and other tools.

Add a Stop to Maps

Go to Maps and put in your end location to get directions. Look for the 'Add Stop' button to add stops along the way. Arrange stops from first to last.

Photo Lookup

Bring up a photo you took such as a flower. Tap it and on the bottom of your screen is a lower case i with a circle and stars around it. Tap on.

Then tap on "Look Up - Plant." Your plant should then be identified.

Quick Notes (how to save an item such as a web page to your Notes app)

Go to the web page you would like to save. Tap the box with the arrow coming out of the top of it on the bottom of the page. Scroll down to 'ADD to Quick Note.' You can type in information below if you wish. Tap SAVE. This note is now in your NOTES app.
